Carillion Communications delivered and configured the latest in video and collaboration technology for Value Retail throughout Europe, sixteen Microsoft Surface Hubs.

Value Retail is the only company to specialise exclusively in the development and operation of luxury retail outlet destinations, the Village Collection, in Europe and China.

The challenge was to commission Surface Hubs in major cities around Europe in a tight timescale, just seven days, with minimal disruption to Value Retail's critical collaboration and meetings programme.

Dedicated Carillion installation and quality assurance teams

Carillion was able to meet the challenge primarily because it uses only its own expert staff to install and configure audio visual technology, wherever the project.

A 4,500 mile round trip included cities such as Paris, Madrid, Barcelona, Milan, Frankfurt, Munich and Brussels where Value Retail now use the Surface Hub for regular meetings in which they make the most of the multi-faceted Surface Hub.

Value Retail Project Manager, Pete Baxter, says *"We're delighted with the efficiency – Carillion worked well with the sites and communicated regularly with me – turned up when agreed and followed all the build and test plans. We cannot fault the process."*

Project overview

Project:
Upgrade A/V equipment

Objective:
Improve training environment

Location:
UK HQ at Cirencester

Tech spec:
24/7 screens
4K UHD res
1.9mm bezels
500 nit brightness
